

**Safety Data Sheet** 

1. Identification of Substance & Company

**Product** 

Product name NOFIRNO FIRE SAFE RUBBER

Other names NA Product codes NA

HSNO approval NA - non hazardous

Approval description NA
UN number NA
DG class NA
Proper Shipping Name NA
Packaging group NA
Hazchem code NA

**Uses** Rubber with fire safe fillers

**Company Details** 

Company Beele Australasia Itd

Address Unit D

156 Bush Road Rosedale , Auckland 0632 New Zealand +64 9 447 1728

 Telephone

#### 2. Hazard Identification

### Approval in New Zealand

This product is not considered hazardous under the Hazardous Substances and New Organisms Act (HSNO).

Classes Hazard Statements

none
SYMBOLS
none

#### Other Classification

There are no other classifications that are known to apply.

#### **Precautionary Statements**

none

### 3. Composition / Information on Ingredients

| Component   | CAS/ Identification | Conc (%) |
|---|---------------------|----------|
| Cross linked silicone polymer with fire retardant fillers | mixture             | 100%     |

This is a commercial product whose exact ratio of components may vary. Trace quantities of impurities are also likely.

## 4. First Aid

### **General Information**

If medical advice is needed, have product container or label at hand. You should call the National Poisons Centre if you feel that you may have been harmed or irritated by this product. The number is 0800 764 766 (0800 POISON) (24 hr emergency service).

Recommended first aid facilities

Ready access to running water is recommended.

Exposure

Swallowed

The product is not considered harmful if swallowed. In case of persistent symptoms,

contact the National Poisons Centre or a Doctor.

**Eye contact** If product gets in eyes, wash material from them with running water for several minutes.

If symptoms persist, seek medical advice.

**Skin contact**This product is non-irritating to skin. No further measures should be required.

**Inhaled**Generally, inhalation of vapours/dusts is unlikely to result in adverse health effects. If coughing, dizziness or shortness of breath is experienced, remove the patient to fresh air immediately. If patient is unconscious, place in the recovery position (on the side) for

transport and contact a doctor.

### **Advice to Doctor**

Treat symptomatically

Page 1 of 5 August 2019

Product Name: NOFIRNO FIRE SAFE

**Safety Data Sheet** 

5. Firefighting Measures

Fire and explosion hazards: Suitable extinguishing

There are no specific risks for fire/explosion for this chemical. It is non-flammable. Carbon dioxide, extinguishing powder or water jet. Fight larger fires with water jet or

alcohol resistant foam.

Unsuitable extinguishing

substances:

substances:

Unknown.

**Products of combustion:** 

Carbon dioxide, and if combustion is incomplete, carbon monoxide and smoke. Water. May form toxic mixtures in air and may accumulate in sumps, pits and other low-lying

spaces, forming potentially explosive mixtures. No special measures are required.

Protective equipment: No Hazchem code: NA

6. Accidental Release Measures

**Containment** In all cases design storage to prevent discharge to storm water.

**Emergency procedures** If a significant spill occurs:

Stop leak if safe/necessary; Isolate area. Collect spill – see below; Transfer to container

for disposal. Dispose of according to guidelines below (Section 13).

Clean-up method Collect and seal in properly labelled containers or drums for disposal. If contamination of

crops, sewers or waterways has occurred advise local emergency services.

Disposal Collect recoverable material into labelled containers for recycling or salvage. Recycle

wherever possible. This material may be suitable for approved landfill. Dispose of only in

accord with all regulations.

**Precautions** No special protective clothing is normally necessary.

### 7. Storage & Handling

Storage Avoid storage of harmful substances with food. Keep from extreme heat and open

flames. Avoid contact with incompatible substances as listed in Section 10.

**Handling** Keep exposure to a minimum, and minimise the quantities kept in work areas. See

section 8 with regard to personal protective equipment requirements.

### 8. Exposure Controls / Personal Protective Equipment

### **Workplace Exposure Standards**

A workplace exposure standard (WES) has not been established by WorkSafe NZ for this product. There is a general limit of 3mg/m³ for respirable particulates and 10mg/m³ for inhalable particulates when limits have not otherwise been established.

NZ Workplace Ingredient WES-TWA\* WES-STEL

Exposure Stds No ingredients listed

## **Engineering Controls**

In industrial situations, it is expected that employee exposure to hazardous substances will be controlled to a level as far below the WES as practicable by applying the hierarchy of control required by the Health and Safety at Work Act (2015) and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016. Exposure can be reduced by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods. If you believe air borne concentrations of mists, dusts or vapours are high, you are advised to modify processes or increase ventilation.

**Personal Protective Equipment** 

Eyes Protective eyewear is not normally necessary when using this product. However, it

always prudent to use protective eyewear if cutting the material.

**Skin** Gloves are not normally required. If discomfort is felt (e.g., if pre-existing conditions exist,

such as dermatitis, cuts or sensitive skin), gloves may be helpful. If you suffer from dermatitis type skin conditions, use gloves. Nitrile or NBR gloves are recommended. Replace frequently. Gloves should be checked for tears or holes before use.

A respirator is not normally required when handing this material.

**WES Additional Information** 

Not applicable

Respiratory

9. Physical & Chemical Properties

Appearance Rubber
Odour Slight odour
pH no data
Vapour pressure no data
Viscosity no data

Page 2 of 5 August 2019

Product Name: NOFIRNO FIRE SAFE

**Safety Data Sheet** 

Boiling pointno dataVolatile materialsno dataFreezing / melting pointno dataSolubilityinsoluble

Specific gravity / density 1.5 g/cm<sup>3</sup> at 23°C

Flash point no data

Flammability
Danger of explosion
Auto-ignition temperature
Upper & lower flammable limits
Corrosiveness
LOI index = 55%
not explosive
no data
no data
non corrosive

10. Stability & Reactivity

Stability Stable

**Conditions to be avoided**Keep from extreme heat and open flames. Do not freeze the product.

### 11. Toxicological Information

Summary

IF SWALLOWED: no known effect.

IF IN EYES: not irritating.

IF ON SKIN: does not result in skin irritation.

IF INHALED: no known effects.

**Supporting Data** 

Acute Oral Using LD<sub>50</sub>'s for ingredients, the estimatedLD<sub>50</sub> (oral, rat) for the mixture is >5,000 mg/kg.

**Dermal** Using LD<sub>50</sub>'s for ingredients, the estimated LD<sub>50</sub> (dermal, rat) for the mixture is >5000

mg/kg.

**Inhaled** Using LC<sub>50</sub>'s for ingredients, the calculated LC<sub>50</sub> (inhalation, rat) for the mixture is

>5mg/L.

Eye The mixture is not considered to be an eye irritant.

Skin The mixture is not considered to be a skin irritant.

Chronic Sensitisation No ingredient present at concentrations > 0.1% is considered a sensitizer.

Mutagenicity
Carcinogenicity
Reproductive /
No ingredient present at concentrations > 0.1% is considered a mutagen.
No ingredient present at concentrations > 0.1% is considered a carcinogen.
No ingredient present at concentrations > 0.1% is considered a reproductive or

**Developmental** developmental toxicant or have any effects on or via lactation.

Systemic No ingredient present at concentrations > 1% is considered a target organ toxicant.

Aggravation of None known.

existing conditions

# 12. Ecological Data

**Summary** 

This mixture is not considered ecotoxic. In all cases prevent run-off to drains, sewers and waterways.

**Supporting Data** 

**Aquatic** Using EC<sub>50</sub>'s for ingredients, the estimated EC<sub>50</sub> for the mixture is > 100 mg/L.

**Bioaccumulation** No data **Degradability** No data

Soil No evidence of soil toxicity.

Terrestrial vertebrate Not considered ecotoxic towards terrestrial vertebrates (see acute toxicity)

**Terrestrial invertebrate** No evidence of toxicity towards terrestrial invertebrates.

**Biocidal** no data

Environmental effect levels No EELs are available for this mixture or ingredients

13. Disposal Considerations

**Restrictions** There are no product-specific restrictions, however, local council and resource consent

conditions may apply, including requirements of trade waste consents.

Disposal method

Disposal of this product must comply with the Hazardous Substances (Disposal) Notice

2017 and the requirements of the Resource Management Act for which approval should

be sought from the Regional Authority.

Page 3 of 5 August 2019

Product Name: NOFIRNO FIRE SAFE

**Safety Data Sheet** 

### Contaminated packaging

Disposal of contaminated packaging must comply with the Hazardous Substances (Disposal) Notice 2017 clause 12. Ensure that the package is renedered incapable of containing any substance and is disposed in a manner that is consistent with the requirements of the substance it contained and the material of the package. If possible reuse or recycle packaging.

# 14. Transport Information

**Land Transport Rule: Dangerous Goods 2005 - NZS 5433:2007**There are no specific restrictions for this product (not a dangerous good).

UN number:NAProper shipping name:NAClass(es)NAPacking group:NAPrecautions:NAHazchem code:NA

## 15. Regulatory Information

This product is not considered hazardous under the Hazardous Substances and New Organisms Act (HSNO). All ingredients appear on the New Zealand Inventory of Chemicals NZIoC.

#### **Specific Controls**

Key workplace requirements are:

SDS Not required (non hazardous), but best practice to have the SDS available.

Inventory An inventory of all hazardous substances must be prepared and maintained.

Packaging All hazardous substances should be appropriately packaged including substances.

All hazardous substances should be appropriately packaged including substances that have been decanted, transferred or manufactured for own use or have been

supplied

Labelling Must comply with the Hazardous Substances (Labelling) Notice 2017.

Emergency plan Not required. Certified handler Not required. Tracking Not required. Bunding & secondary containment Not required. Signage Not required. Location compliance certificate Not required. Flammable zone Not required. Fire extinguisher Not required.

Note: The above workplace requirements apply if only this particular substance is present. The complete set of controls for a location will depend on the classification and total quantities of other substances present in that location.

### Other Legislation

In New Zealand, the use of this product may come under the Resource Management Act and Regulations, the Health and Safety at Work Act 2015 and the Health and Safety at Work (General Risk and Workplace Management) Regulations 2016, local Council Rules and Regional Council Plans.

## 16. Other Information

**Abbreviations** 

**Approval Code** not applicable – non hazardous.

CAS Number Unique Chemical Abstracts Service Registry Number

EC<sub>50</sub> Ecotoxic Concentration 50% – concentration in water which is fatal to 50% of a test

population (e.g. daphnia, fish species)

**EPA** Environmental Protection Authority (New Zealand)

Globally Harmonised System of Classification and Labelling of Chemicals

**HAZCHEM Code** Emergency action code of numbers and letters that provide information to emergency

services, especially fire fighters

HSNO Hazardous Substances and New Organisms (Act and Regulations)

IARC International Agency for Research on Cancer
LEL/UEL Lower Explosive Limit/ Upper Explosive Limit

**LD**<sub>50</sub> Lethal Dose 50% – dose which is fatal to 50% of a test population (usually rats).

Lethal Concentration 50% – concentration in air which is fatal to 50% of a test population

(usually rats)

MSDS (SDS) Material Safety Data Sheet (or Safety Data Sheet)

NZIoC New Zealand Inventory of Chemicals

STEL Short Term Exposure Limit - The maximum airborne concentration of a chemical or

biological agent to which a worker may be exposed in any 15 minute period, provided the

TWA is not exceeded

Page 4 of 5 August 2019

Product Name: NOFIRNO FIRE SAFE

**Safety Data Sheet** 

TWA Time Weighted Average – generally referred to WES averaged over typical work day

(usually 8 hours)

**UN Number** United Nations Number

WES Workplace Exposure Standard - The airborne concentration of a biological or chemical

agent to which a worker may be exposed during work hours (usually 8 hours, 5 days a week). The WES relates to exposure that has been measured by personal monitoring

using procedures that gather air samples in the worker's breathing zone.

Review

DateReason for reviewAugust 2019Not applicable – new SDS

### **Disclaimer**

This SDS was prepared by Datachem LTD and is based on our current state of knowledge, including information obtained from suppliers. The SDS is given in good faith and constitutes a guideline (not a guarantee of safety). The level of risk each substance poses is relevant to its properties (as summarised in the SDS) AND HOW THE SUBSTANCE IS USED. While guidelines are given for personal protective equipment, such precautions must be relevant to the use. The likely HSNO classifications for this SDS have been estimated based on general information from the supplier (e.g., hazard, toxicological). This SDS is copyright Datachem and must not be copied, edited or used for other than intended purpose. To contact the SDS author, email info@datachem.co.nz or phone: +64 9 940 30 80.
